PROFESSIONAL SUMMARY

Certified Ethical Hacker (CEH) and Certified Penetration Tester (CPT) with hands-on experience in vulnerability assessment, web application security, security monitoring, and SIEM-based log analysis. Experienced in identifying OWASP Top 10 vulnerabilities and analyzing security events through practical labs and cybersecurity projects. Familiar with Splunk-based security monitoring, alert analysis, network security, and Linux environments. Seeking an entry-level SOC Analyst, Cybersecurity Analyst, or VAPT role.

TECHNICAL SKILLS

Security Domains: VAPT, Web Application Security, Network Security, SIEM, Security Monitoring, Incident Detection

Defensive Security: Log Analysis, Alert Monitoring, Security Event Analysis, Threat Detection, Incident Investigation Fundamentals

Web Security: OWASP Top 10, Broken Access Control, SQL Injection, XSS, CSRF, SSRF, IDOR, File Upload Vulnerabilities, Path Traversal, Command Injection, Security Misconfiguration

Security Tools: Splunk Enterprise, Wireshark, Burp Suite, Nmap, Metasploit, SQLmap, Gobuster, Dirsearch, Hydra, John the Ripper, Nikto

Programming: Bash, SQL, HTML, Python, JavaScript

PROJECTS

Splunk SIEM Security Monitoring Lab

- Built a Splunk Enterprise SIEM lab for security log collection, monitoring, and analysis.
- Simulated security events and created searches, alerts, and dashboards for suspicious activity detection.

Vulnerable Linux CTF Machine

- Developed a vulnerable Ubuntu machine featuring WordPress, SSH authentication, and privilege escalation.
- Created a multi-stage CTF challenge involving Nmap, Dirsearch, Steghide, and privilege escalation techniques.

Linux Security Monitoring & Remote Administration Bot

- Developed a Python Telegram bot for remote Linux system monitoring and administration.
- Implemented security alerts, system status monitoring, screenshot capture, camera access, and remote system control.

ESP32 Wi-Fi Penetration Testing

- Performed Wi-Fi scanning, network reconnaissance, and security assessment in a lab environment.
- Conducted password strength testing on authorized test networks using dictionary-based auditing methods.

CERTIFICATIONS

- **Certified Ethical Hacker (CEH v13)** – EC-Council
- **Certified Penetration Tester (CPT)** – RedTeam Hacker Academy
- **SQL Injection Attacks** – EC-Council

ACHIEVEMENTS

- Ranked in the **Top 7% globally** on TryHackMe

EDUCATION

Bachelor of Commerce (B.Com) – Computer Applications
K.E. College, Mannanam | Mahatma Gandhi University
2022 – 2025
